Lista Española de todos los tiempos (marcas y atletas)

cerrado a 31.12.2022

AUTORES

Ignacio Mansilla
Miguel Villaseñor

Con la colaboración especial de Francisco Ascorbe, José Manuel Ballesteros, Félix Capilla, José Javier Etayo, Carlos Fernández Canet, José Luis Hernández, José María García, Juan Luis Llop, Crisanto Martín, Antonio Muñoz, Guillem Pera, Agustín Pérez, José Antonio Punzón, Francisco Ramos, Ricard Rof, Alberto Sánchez Traver y Enrique Tre.

En 2009 se celebró el décimo aniversario de la publicación de la “Lista española de marcas de todos los tiempos” y creímos que era buen momento para recopilar en un boletín una lista all-time de atletas y marcas a fin de actualizar y unificar lo máximo posible esta faceta tan importante de nuestra estadística. Para la elaboración de este trabajo se partió de la base, por un lado, de la citada lista de marcas y, por otro, del trabajo publicado en el boletín nº 65 por José Antonio Punzón sobre el ranking de España de todos los tiempos de atletas, fusionándolo en un solo archivo e incluyendo 100 marcas en pruebas olímpicas (en algunos casos más en función de la calidad de la prueba) y 100 atletas en una compilación que pretende ser la obra de referencia en el futuro en este tipo de trabajos. Todo ello lo hemos complementado con otra serie de valiosas informaciones como por ejemplo listados de pruebas no olímpicas, series de

las pruebas de concurso cuando éstas se conocen, notas aclaratorias, marcas al aire libre de atletas con mejor marca en pista cubierta, marcas secundarias de atletas con mejor marca en gran altitud o marcas eléctricas de atletas con mejor marca manual.

Es ésta una faceta de nuestra estadística que se viene cultivando desde hace ya bastantes años, siguiendo la estela de otros compañeros de la AEEA que ya han trabajado en este campo y por tanto creemos oportuno resumir aquí brevemente, tal y como hicimos en el boletín nº 65, el largo proceso que ha permitido que estas listas cada vez sean más completas. La idea de elaborar un ranking nacional de todos los tiempos con los 100 mejores atletas españoles en cada prueba surgió en la Segunda Convención Anual de la AEEA que tuvo lugar el 14 de Enero de 1989, poniendo en

práctica uno de los puntos que figuran en nuestros estatutos. Surgió un gran trabajo de colaboración en el que estuvieron Andrés de Acuña, Juan Manuel Alonso, Francisco Ascorbe, Ernesto Díaz, José María García, José Luis Hernández, Ignacio Mansilla, Juan José Pelayo, Federico Luis Pérez, José Antonio Punzón, José Luis Ramos, Ignacio Romo, Ángel Sáinz, Alberto Sánchez Traver, Gabriel Velasco y Manuel Villuendas.

El resultado de este trabajo se plasmó en el libro “El Atletismo olímpico español”, publicado en 1992 con motivo de los Juegos Olímpicos de Barcelona, una de las obras básicas de la historiografía y estadística atlética española y que, en este apartado de las listas all-time, sirvió como base de futuras compilaciones.

En cuanto a la lista de marcas, su origen también está en la propia fundación de nuestra AEEA. Juan Manuel Alonso y Andrés de Acuña fueron sus promotores. Tras unos años en los que el proyecto quedó aparcado en beneficio de otras compilaciones, en la Asamblea General celebrada el 21 de enero de 1995 se dio el impulso definitivo, llevando el peso del proyecto Carlos Fernández Canet y Francisco Ascorbe, contando con el apoyo fundamental de José Luis Hernández, José Antonio Punzón y José Javier Etayo. El proyecto vio por fin la luz en junio de 1999 en el magnífico volumen “Lista española de marcas de todos los tiempos”, que tuvo una gran acogida y se convirtió en la obra de referencia en este campo.

Desde el año 1999 la lista de atletas se ha

ido llevando al día gracias al excelente trabajo de José Antonio Punzón, que publicó una versión actualizada del listado all-time de 100 atletas en el ya anteriormente citado boletín nº 65 en diciembre 2002, pero que año a año ha ido actualizando sus ficheros con las nuevas incorporaciones producidas. Sin esta actualización periódica posiblemente este listado no hubiese visto nunca la luz. Por lo tanto, para la elaboración de este trabajo se ha tomado como base la lista actualizada de atletas de Punzón y la de Ascorbe y Fernández Canet de 1999 para las marcas, actualizando este último punto con las listas anuales de marcas.

En 2008, Ignacio Mansilla tuvo la firme y brillante idea de la realización del presente ranking de marcas y atletas, unificando los criterios de presentación para que tanto un capítulo como otro se recogieran de la misma forma y en el mismo listado. Unió por lo tanto ambos rankings y el propio Ignacio corrió con la labor de actualización con la introducción de marcas desde 1999 a 2008.

El proyecto recibió entonces el impulso de Miguel Villaseñor, que realizó la revisión exhaustiva de la lista y se encargó de unificar los criterios de presentación. Ignacio tuvo entonces la determinación de introducir las series completas de saltos y lanzamientos de las primeras cincuenta marcas de cada prueba. La labor a realizar, sin embargo, era grande y el trabajo, que se iba a publicar en principio en noviembre de 2008, se pospuso a enero de 2009. Ello permitió una estrecha colaboración entre Ignacio y Miguel que supuso que el listado

fuese ganando una enorme calidad estadística y de presentación. Por un lado, Ignacio dio un nuevo golpe de tuerca e introdujo en el listado las series completas de las 100 mejores marcas. Miguel, por su parte, añadió importantes, y algunos novedosos, epígrafes como “mejores marcas al aire libre de atletas con mejor marca en pista cubierta” (ya compilado por Punzón), “marcas eléctricas de atletas con mejor marca manual en 400 y 400 vallas” y “mejores marcas sin influencia de gran altitud”. Finalmente, entre ambos fueron aumentando el número de marcas en algunas pruebas significativas, superando el inicial número de 100, introdujeron nuevas pruebas en marcha, separando en esta especialidad ruta y pista, y resolvieron las dudas y omisiones que fueron saliendo a la luz. Nuestro compañero y maestro José María García aportó su experiencia y visión de conjunto, supervisó en general el trabajo, aportando opiniones, correcciones y adendas e introdujo la jabalina antigua.

El trabajo de Ignacio Mansilla y Miguel Villaseñor estuvo apoyado permanentemente en aquellos últimos meses por las importantes contribuciones y correcciones realizadas por José María García, como ya se ha comentado, y por José Luis Hernández, José Javier Etayo, Francisco Ascorbe, Enrique Tre y José Antonio Punzón.

La “Lista Española de todos los tiempos (marcas y atletas)” se publicó por primera vez, como hemos dicho, en 2009. Desde entonces ha sido actualizada anualmente por José Luis Hernández y Miguel Villaseñor y con la incorporación de Enrique Tre para las pruebas combinadas, en una labor

siempre ardua y concienzuda y que ha supuesto un aumento progresivo del trabajo, pues se han respetado los límites originales de 100 marcas y 100 atletas y se han ido añadiendo nuevos registros y nuevos atletas hasta superar con creces dicha cifra. En la tarea de completar y, en su caso, corregir la información han contribuido regularmente multitud de compañeros de la Asociación, por lo que se puede afirmar claramente que de nuevo el espíritu de trabajo en equipo, que ha estado presente desde los orígenes de la AEEA, se pone de continuo de manifiesto en este trabajo estadístico hasta llegar a este magnífico resultado final. Última prueba de ello ha sido la inclusión para la actualización de 2016 de las pruebas no habituales de 150 metros, 500 metros, fondo en pista (1 hora, 20.000 metros, 25.000 metros y 30.000 metros), 200 metros vallas y 300 metros vallas en ambas categorías y que han recibido el apoyo y el interés de muchos miembros.

En los últimos años, Miguel Villaseñor ha tomado el liderazgo en solitario de esta compilación y actualizaciones año tras año.

A continuación iremos desgranando los distintos apartados y aspectos que aparecen en el listado, aclarando en la medida de lo posible las cuestiones que nos han surgido a lo largo de su elaboración o aquellas otras que consideramos de interés aclarar.

No obstante, nos ha parecido conveniente que esta parte más “técnica” de la introducción no se extendiera demasiado. Por ello, remitimos al lector a la excelente introduc-

ción que redactó en su día Francisco Ascorbe para el libro de marcas de 1999 (págs. 9 a 26) y a la extraordinaria que hizo José María García a la “Cronología de los récords y mejores marcas españolas” en el libro “El Atletismo Olímpico Español” de 1992 (págs. 199 a 205). En ellas se estudian con mayor detalle algunos de los problemas y cuestiones que en la presente introducción quedan solamente esbozados.

Pruebas incluidas

Se incluyen en el presente listado español de todos los tiempos de marcas y atletas todas las pruebas olímpicas, más pruebas que disputan o han disputado habitual o esporádicamente los atletas españoles.

Marcas y atletas incluidos

Como hemos apuntado el límite general de marcas y atletas por prueba fue originalmente de 100 en aquella primera edición de 2009. En pruebas menos habituales los límites eran inferiores. Ahora bien, como ya se comentado, las 100 marcas y los 100 atletas se superan, a veces ampliamente, debido a la actualización anual que respeta los límites originales y que ha supuesto la incorporación de nuevas marcas y atletas; asimismo el número de marcas en algunas pruebas es superior debido a la mayor calidad de los registros conseguidos por atletas españoles. El límite entonces se ha situado en muchos casos en alguna marca significativa.

Somos conscientes de que algunos de estos criterios para aumentar el número de marcas de los listados son puramente sub-

jetivos, pero básicamente se ha tenido en cuenta, como se ha dicho, la calidad de las marcas y algunos topes significativos.

Marcas en pista cubierta y mejores marcas al aire libre

Al contrario que en algunos rankings, las marcas conseguidas en pista cubierta figuran normalmente en los listados, apareciendo una *i* (de indoor) junto a la marca. Ahora bien, existen apartados en cada prueba para indicar la mejor marca al aire libre (siempre que esté por encima del límite de la última marca de la lista general) de atletas cuya mejor marca fue conseguida en pista cubierta.

Marcas en altitud y mejores marcas sin influencia de la altitud

Las marcas conseguidas en pistas situadas a una altitud superior a 1.000 metros van acompañadas de una *A*. En los listados all-time es frecuente indicar la mejor marca sin influencia de altitud, es decir, a una altitud inferior a 1.000 metros sobre el nivel del mar. Ello se pretendió hacer en este listado, pero pronto nos dimos cuenta de que nuestro país presenta una particularidad en este sentido.

Efectivamente, hay tres ciudades de altitud ligeramente superior a 1.000 metros y, por lo tanto, las marcas conseguidas en ellas están acompañadas por la *A* correspondiente. Estas ciudades son Segovia, Ávila y Soria. Ahora bien, se ha considerado que no merecía la pena indicar mejores marcas sin altitud para atletas que habían logrado sus mejores marcas en dichas ciudades.

Su número era numeroso y, además, no tenía mucho sentido si, como ocurría con frecuencia, la mejor marca sin altitud había sido lograda en Salamanca o Madrid.

Por ello, únicamente se indican mejores marcas sin altitud de atletas con mejor marca en Monachil (2.320 metros) y, en unos pocos casos, Ciudad de México (2.240 metros) y Nairobi (1.795 metros), en lo que hemos venido denominando a lo largo de la elaboración del trabajo como “gran altitud”.

Marcas manuales y mejores marcas eléctricas

En las pruebas de distancia inferior a 400 metros, las marcas con cronometraje manual figuran separadas de las conseguidas con cronometraje eléctrico. En primer lugar aparecen las marcas eléctricas y en segundo lugar las marcas manuales y los atletas con mejor marca manual. El diferencial aplicado para la inclusión o no de las marcas manuales es el conocido de 0.24 segundos.

A partir de los 400 metros ambos tipos de marcas figuran mezcladas. En los 400 metros y 400 metros vallas el diferencial aplicado es de 0.14 segundos. Ahora bien, para las pruebas de 400 metros y 400 metros vallas se ha considerado interesante que figuren las mejores marcas eléctricas de atletas cuya mejor marca es manual, siempre dentro de la marca tope con que termina la prueba.

Marcas eléctricas y marcas eléctricas redondeadas

Las marcas eléctricas que fueron en su día redondeadas a décimas se presentan en su versión centesimal, si ésta es conocida.

Se han examinado numerosas marcas presentadas en décimas, en apariencia manuales, y conseguidas antes de 1981, y de las que se sospechaba que podían ser marcas eléctricas redondeadas. En algún caso ha sido hallada la centésima (1 milla, González 3:58.91 1979). Algunas marcas “históricas”, consideradas manuales tradicionalmente, son en realidad eléctricas redondeadas: 10000m Álvarez 28:01.4e 1971, 3000m Cerrada 7:47.7e 1977 y 3000m Valero 9:00.9e 1978. El criterio del proceso de redondeo fue cambiante desde 1964 a 1980, variando en función de la normativa vigente entonces, de la distancia y de la aplicación hasta mayo de 1971 de la corrección IAAF de 5 centésimas. No obstante, se indica en cada caso mediante una nota el intervalo de centésimas en el que se encuentra comprendida la marca.

En el apartado de marcas no válidas se vuelve a tratar este tema de marcas eléctricas.

Marcas redondeadas en ruta

Las marcas de pruebas de carrera o marcha en ruta cronometradas en décimas o centésimas se han redondeado al segundo superior.

Velocidad del viento

Se expresa en metros por segundo hasta las décimas. Si se conoce en centésimas se redondea al alza a la décima superior. Así, por ejemplo, un viento de +1,82 será +1,9, uno de -0,05 será 0,0 y uno de -1,23 será -1,2. Se ha considerado asimismo que al viento nulo (0,0) no se le pueden poner delante los signos + o -, como vemos con frecuencia.

Vnm significa viento no medido y figura cuando se tiene constancia de que la velocidad del viento en una prueba no fue medida. La validez o no de la marca estará en función de las referencias que se tengan de la velocidad del viento.

Desc significa desconocido y aparece cuando el viento no figura en los resultados oficiales de la prueba. Si no se conoce el viento y no se ha podido acceder a los resultados oficiales el espacio aparece en blanco.

Datos del atleta

En la primera marca de un atleta en cada prueba figura su nombre y apellidos y la fecha de nacimiento. La fecha de nacimiento figura según el formato DDMMAA (día, mes y año) con seis dígitos en total, por lo que sólo aparecen los dos últimos dígitos del año. En algunos pocos casos sólo se conoce el año de nacimiento, pero no el día ni el mes, y por ello sólo figuran dichos dos últimos dígitos del año.

Asimismo, si las mejores marcas no válidas, que veremos más tarde, son superior-

res a las mejores legales de un atleta, los datos completos de éste figuran en dichas marcas no válidas.

Puesto

El puesto que figura es el conseguido en la prueba. En su caso aparece entre paréntesis el puesto en la competición que se indica y en la que hubo competidores fuera de concurso. Dicha circunstancia, el fuera de concurso, aparece indicado como fc junto al puesto si el atleta no participaba en dicha competición.

En carreras, junto al puesto figura si la marca fue conseguida en eliminatoria (e), cuartos de final (q) o semifinal (s), con el número de dicha carrera a continuación (p.ej., e3, q2 ó s1). Se ha tenido especial cuidado en denominar como e (eliminatoria) a aquella única ronda previa a la final con carácter eliminatorio, pero que, con frecuencia, ha aparecido erróneamente como s (semifinal).

En el caso de los concursos, si la marca fue conseguida en calificación aparece la letra Q tras el puesto general en dicha calificación. Entre paréntesis aparece el puesto dentro de cada grupo de calificación; por ejemplo, 8Q (3A) significa que el atleta consiguió el puesto 8 general y 3 en su grupo de calificación, que fue el A. En ocasiones se denomina también como Q1 y Q2 a los grupos de calificación, pero se ha homogeneizado y se denomina QA al grupo Q1 y QB al grupo Q2.

Como excepción a lo anterior y como se especifica más adelante, en marcas conse-

guiadas en el transcurso de una combinada en saltos o lanzamientos se ha preferido que figure el número (1 ó 2) a la letra (A o B) del grupo de salto o lanzamiento.

En aquellas competiciones en que se hayan desarrollado diversas carreras en una misma prueba y que no tuvieron el carácter de eliminatoria, se indican con la letra c seguida del número de carrera (c1, c2...) o bien, si hubo un criterio de importancia, como carrera A ó B (o final A, final B), se señala con cA, cB... Bien es cierto que en ocasiones el denominar a una carrera como 1 ó A no responde a ningún criterio.

Se ha preferido la letra c (de carrera) a la r (de "race", carrera en inglés). Asimismo, se ha introducido como novedad la letra c antes de A, B..., pues en ocasiones había series D, que podían confundirse con marcas conseguidas en decatón, a las que nos referiremos en otro apartado.

En concursos también se emplea, en algunas ocasiones, la letra c junto al puesto, que aquí significa competición y se utiliza si hubo en esa prueba más de una competición. Por ejemplo, 2cB quiere decir que el atleta fue segundo en la competición B. Esta circunstancia ocurre en algunos campeonatos o reuniones centradas en saltos o lanzamientos.

En el caso de pruebas femeninas en ruta, de carácter mixto, es decir, con hombres y mujeres en la misma carrera, se indica exclusivamente el puesto en categoría femenina.

Asimismo, no aparece ninguna referencia a

si el puesto ha variado por descalificaciones posteriores por dopaje de atletas que precedieron. En los últimos años han sido frecuentes las reclasificaciones por este motivo, a veces con años de retraso, y simplemente se indica el puesto final actual. Las inclusiones de notas aclaratorias serían numerosísimas.

Si dos atletas son clasificados ex-aequo aparece el signo igual = junto al puesto.

Hay que hacer constar que es complicado determinar el puesto para las marcas logradas como tiempos de paso en pruebas en ruta, sobre todo en la especialidad de marcha, y por doble motivo. En primer lugar, en unas ocasiones son contabilizados los atletas posteriormente descalificados o que abandonaron la competición y en otras no. En segundo lugar, a veces se hace distinción de puestos para los atletas que componen un grupo en el punto de paso y en otras ocasiones se les engloba bajo el mismo puesto igualado.

Marcas conseguidas en pruebas combinadas

Las marcas conseguidas en pruebas que integran las pruebas combinadas se distinguen porque en el puesto figuran letras mayúsculas. Las letras empleadas son D (si fue conseguida en un decatón), H (en un heptatón femenino o en un heptatón masculino en pista cubierta), P (si fue lograda en el antiguo pentatón femenino, prueba celebrada hasta 1980, o en un pentatón femenino en pista cubierta), O (si fue lograda en un octatón masculino juvenil) y E (si fue conseguida en un hexatón femenino juvenil).

Si únicamente aparece un número delante de la letra, por ejemplo, 1D, significa que el atleta fue primero en esa prueba de la combinada y que sólo hubo una serie o grupo de salto o lanzamiento, o bien, que no se conoce si hubo más de una serie o grupo de salto o lanzamiento y fue primero en el cómputo general de la prueba.

Si aparece un número detrás de la letra hace referencia al grupo de salto o lanzamiento o a la serie en que se consiguió la marca. Así, por ejemplo, si en 100 metros vallas femenino aparece 1H4 significa que la atleta fue primera en la cuarta serie del heptatlón; si aparece 2D2 en el salto de longitud significa que el atleta fue segundo en el segundo grupo de saltos.

Competición

Aparece en numerosos casos la competición en que fue conseguida cada marca, utilizando para ello abreviaturas que se compilan un poco más adelante.

Lugar de competición

Para los lugares de consecución de las marcas se han elegido, generalmente, los topónimos en castellano. Para localidades españolas no se indica nada más, pero para ciudades extranjeras figura entre paréntesis el país correspondiente en el momento de la consecución de la marca, de acuerdo con las siglas de la IAAF. En ningún caso se hace referencia al estadio, pista o instalación en que fue conseguida la marca.

Pruebas de marcha

En las pruebas de marcha se han separado totalmente las pruebas disputadas en ruta y las disputadas en pista, no mezclándose en ningún caso ambas circunstancias. Asimismo, se ha añadido novedosamente la prueba de 15 km en ruta, cuyas marcas proceden en su totalidad de tiempos de paso de la prueba de 20 km.

Cambios de nacionalidad

En los últimos años han sido relativamente frecuentes los atletas que han adquirido la nacionalidad española. Obviamente, sólo figuran marcas de dichos atletas una vez adquirida nuestra nacionalidad, excluyendo las logradas con anterioridad a la fecha de nacionalización.

Fecha de la marca

Aparece con el formato DD.MM.AAAA (día, mes y año). Únicamente señalar que en pruebas combinadas, en las que la prueba se desarrolla en dos días, se consigna el segundo día de competición.

Series en los concursos

Las marcas que aparecen en pruebas de concursos (saltos y lanzamientos) en la parte del listado exclusivo de marcas van acompañadas de su serie correspondiente. En unos pocos casos se desconoce la serie, lo cual se indica con (desc.). En dichas series figuran los intentos nulos (x), la tentativa no intentada o pasa (p), si el atleta abandonó la competición (ab), el número de intento válido en saltos vertica-

les (separado con un guión de la altura que se trate) y el viento, cuando corresponda y se conozca.

Lo normal es que las series de saltos horizontales y lanzamientos se compongan de seis intentos, pero es habitual desde 1997 que en algunas competiciones los atletas dispongan únicamente de cuatro. Lógicamente en ocasiones sólo aparecen tres intentos en las calificaciones y cuando el atleta no ha logrado pasar a la mejora del concurso.

Marcas con viento favorable superior a 2 m/s

Estas marcas no son válidas y figuran en listado aparte en cada prueba.

Marcas no válidas

Se excluyen lógicamente de la lista principal y figuran en apartados independientes. Además del viento favorable superior a 2 m/s, las causas más comunes son dopaje, cronometraje defectuoso, implementos con peso inferior al reglamentario y distancia corta en pruebas de ruta. En cualquier caso, se especifica lo más concretamente posible la causa de la no validez.

Como ya se ha comentado, si dichas marcas no válidas son superiores a las mejores válidas de un atleta, los datos completos de este figuran en dicha marca.

Citemos aquí el cronometraje del Campeonato Iberoamericano de México 1988, que se ha considerado como defectuoso, por lo que las marcas centesimales de pruebas

de menos de 800 metros logradas en dicha competición figuran como no válidas. Algunas de ellas entran en los límites del presente ranking al aceptarse como manuales con redondeo al alza. Asimismo, figura como no válida la marca de 10.41 de José Carbonell en los 100 metros en Sofía en 1977, marca no eléctrica automática a pesar de su presentación centesimal.

Tanto el redondeo de marcas eléctricas como la cuestión del cronometraje en México 1988 y Sofía 1977 fue tratado ampliamente por José María García en la introducción ya citada en el libro de 1992, por lo que recomendamos su atenta lectura a quien esté especialmente interesado.

Dopaje

Como ya se ha indicado las marcas no válidas por dopaje figuran en apartado independiente. Ahora bien, a diferencia de otros rankings, en ningún caso se hace referencia a atletas sancionados por dopaje mediante llamadas, asteriscos u otros signos situados junto al apellido del atleta.

Marcas en desempate

Figuran normalmente en los listados, pues el atleta queda clasificado con la marca de dicho desempate si es superior a la lograda en la competición normal, de acuerdo al artículo 180.21 del Reglamento.

Marcas conseguidas en pruebas de relevos

No se incluyen en ningún caso las marcas individuales parciales en pruebas de relevos. El motivo es que habría que tomarlas

con enormes reservas por la forma en que han sido cronometradas o calculadas.

Intentos extra

Son escasos a lo largo del listado, figurando en apartado independiente al final de la prueba.

Tiempos de paso

Se relacionan en apartado independiente al final de la prueba. El motivo fue explicado ejemplarmente por Francisco Ascorbe en el libro de 1999 y remitimos a su lectura (págs. 11 y 12) para una perfecta comprensión de la cuestión. En muchos casos no es posible determinar cuándo se ha cronometrado como si de tiempos finales se tratara (ya sea manual o eléctricamente), cuando se ha hecho manualmente con menos de tres cronometradores, cuando se ha hecho con célula fotoeléctrica o cuando son simplemente tiempos de paso no oficiales, tomados desde la grada o a través de imágenes de televisión o vídeo.

En cualquier caso, cuando se conocen sólo algunos tiempos de paso y no todos se indica expresamente con “algunos tiempos de paso conocidos a una distancia superior”. En algunas pruebas existen notas de advertencia en el sentido de que faltan con seguridad tiempos de paso que de conocerse estarían incluidos.

En los últimos tiempos, desde los años ochenta, la cantidad de tiempos de paso disponibles ha disminuido considerablemente, de manera que sólo son conocidos y oficiales los logrados por los líderes de las carreras en el punto de paso, incluso en

los grandes campeonatos internacionales.

Sin embargo y afortunadamente, en las pruebas de marcha sí son conocidos, por lo general, los tiempos de paso de todos los participantes. Asimismo, en la prueba de la milla se sigue cronometrando oficialmente el paso por los 1.500 metros de todos los atletas.

Notas a pie de prueba

Como ya se ha apuntado, a lo largo de cada prueba aparecen llamadas en forma de números entre paréntesis que se traducen en notas a pie de prueba. Se ha intentado que la cantidad de dichas notas sea la menor posible y lo más sencillas y simplificadas, evitando la introducción de largos textos.

Contabilización o conteo de marcas y atletas

Las marcas y los atletas figuran en grupos de diez, con el número total de los mismos entre paréntesis. En la lista de marcas aparecen dos cifras, la primera hace referencia al número de marcas y la segunda al número de atletas. En la parte del listado sólo de atletas aparece una sola cifra que indica el número total de atletas.

En las listas secundarias (marcas manuales, ventosas, no válidas, tiempos de paso, etc) a veces es necesaria la presencia de una tercera cifra que indica el número de atletas con marca superior a la mejor marca que figura en la lista legal.

Resumen de signos y letras

- A Junto a la marca indica que esta fue conseguida a más de 1.000 metros de altitud.
- A, B, C... En puesto, después de c, marca conseguida en carrera A, carrera B...
- ab En series de saltos verticales, abandono en una prueba.
- c En puesto, significa carrera, competición.
- D En puesto, marca conseguida en decatlón.
- E En puesto, marca conseguida en un hexatlón juvenil.
- e En puesto, significa eliminatoria (primera o única carrera previa a la final).
- e Situada junto a una marca, se indica que esta es eléctrica pero redondeada a décimas.
- ext En puesto, marca conseguida en serie extra de una competición.
- desc En series, serie de saltos o lanzamientos desconocida. En viento, velocidad del viento desconocida, no figura en resultados oficiales.
- H Marca conseguida en heptatlón femenino al aire libre o en un heptatlón masculino en pista cubierta.
- i Detrás de una marca, indica que ha sido conseguida en pista cubierta (indoor).
- m Detrás de una marca, indica que ésta es manual.
- P En puesto, marca conseguida en un pentatlón femenino al aire libre o en un pentatlón femenino en pista cubierta.
- p En series de concursos, tentativa no intentada o pasa.
- q En puesto, cuarto de final (segunda carrera de una serie de cuatro rondas eliminatorias).
- Q En puesto, calificación.
- s En puesto, semifinal (carrera eliminatoria previa a la final después de una o dos rondas previas).
- V En pruebas combinadas, marca no válida por haber una media de vientos superior a 2 m/s.
- x En series de concursos, intento nulo.
- vnm En viento, viento no medido.
- = Junto al puesto, atleta igualado (clasificado ex-aequo) con otro u otros atletas.
- * Atleta que ha adquirido la nacionalidad española. Ver el cuadro final de cambio de nacionalidad.
- Figura en el puesto de una mejor marca legal (con velocidad del viento de hasta 2 m/s) de una serie cuya mejor marca tiene viento superior a 2 m/s

| 13.60 A | 0,8 | | Moracho | | 1e2 | CibAm | Ciudad de México (MEX) | 22.07.1988 |
| 13.71 A | 0,8 | | Sala (2/2) (0) | | 2e1 | CibAm | Ciudad de México (MEX) | 22.07.1988 |

Notas:

(1) Este atleta se apellidó Capella anteriormente.

(2) El tiempo real de Rafael Cano estuvo comprendido entre 14.40 y 14.49; en el listado aparece la peor marca posible (14.49). Ha aparecido erróneamente con anterioridad como 14.45. El crono oficial fue el manual de 14.2.

(3) Esta marca apareció en principio en los resultados oficiales como eléctrica (13.46). A la semana siguiente, la Federación Francesa notificó que hubo irregularidades en el cronometraje, por lo que fueron oficiales las marcas manuales. Además, entre la primera versión eléctrica y la segunda manual Sala se le clasificó un puesto más atrás.

(4) Figura en el listado de marcas manuales como 13.2.

Marca no válida, cronometraje eléctrico defectuoso

| | | | | | | | |
|-------------|--|--------|--|---|-------|------------------------|------------|
| 49.20 A (3) | | Alonso | | 1 | CibAm | Ciudad de México (MEX) | 24.07.1988 |
|-------------|--|--------|--|---|-------|------------------------|------------|

Notas

(1) En resultados oficiales se dió 49.82 y, posteriormente, se corrigió en una centésima.

(2) Según testimonios recogidos, corroborados por la copia de la foto-finish de la carrera, la marca de 50.06 adjudicada a Casabona es errónea. Del estudio de esta copia se deduce que la marca real podría oscilar entre 50.60 y 50.86. Su siguiente marca es:

| | | | | | | | |
|-------|--|----------|--|---|----|-----------|------------|
| 50.30 | | Casabona | | 1 | CE | Barcelona | 11.08.1979 |
|-------|--|----------|--|---|----|-----------|------------|

(3) Figura en el listado redondeada como 49.2 m A. La marca oficial inicial fue de 49.21, por lo que también ha figurado como 49.3 m A.

(4) Con una valla colocada irregularmente.

Tiempo de paso sin confirmar

| | | | | | | | |
|---------|-----------|---------|--------|--|-------|----------------|------------|
| 5:28.95 | Francisco | Sánchez | 180558 | | VD/GP | Bruselas (BEL) | 05.09.1986 |
|---------|-----------|---------|--------|--|-------|----------------|------------|

Nota: estos tiempos de paso no se consideran como mejores marcas a efectos de figurar en el índice dado que aunque el número total de obstáculos es el mismo para la prueba de los 2.000m que al paso del 2.000m en la carrera de 3.000m (23), aquí se pasa una ría menos (y, por tanto, un obstáculo más).

3.000 metros Obstáculos

8.12 Lamela 1 Córdoba 25.04.2004
 (7.98 - 7.96 - 8.12)
 (4 marcas / 2 atletas) (0)

Notas:
 (1) No figura serie en resultados oficiales. Los datos proceden de la prensa y el orden de la serie no se conoce. Es casi seguro que alguna de las marcas secundarias se consiguió con velocidad de viento superior a 2 m/s.
 (2) En los resultados oficiales figura viento 0,0 m/s para todos los intentos, pero es un error. Otras versiones dan +0,8 m/s al mejor salto.

Nota:

David Martínez fue sancionado por el Comité de Competición y Jurisdicción de la RFEA (CCJ) por dos años, sanción que concluía en mayo de 1999. Posteriormente, el Comité Español de Disciplina Deportiva (CEDD) le levantó la sanción. Esta marca está pendiente de homologación como récord de España.

Marca conseguida en intento extra

| | | | | | | | |
|-------|--|---|--|---|--|--------|------------|
| 78.28 | | Tallón | | 1 | | Madrid | 14.11.1975 |
| | | (x - 77.62 - x - 75.32 - 74.98 - 75.04 - 78.28) | | | | | |

Notas.

(1) El finlandés Asko Koski cita también un 75.30 hecho dos días después en Barcelona. No hemos podido confirmar la marca y podría ser una versión errónea de los 75.38.

(2) En el ránking federativo de 1979 se cita como hecha en Marignane, el 22 de abril, pero ese día lanzó en Cornellá, en la liga catalana.

Notas:

En la segunda columna se indica la puntuación según la tabla 1962 para marcas conseguidas antes de 1985, año de entrada en vigor de la tabla actual.

(1) En los resultados oficiales de la prueba hay una divergencia: mientras que en el cuadro final se refleja como 11.45 la marca de Peñalver en los 100m, en el sumario de la prueba aparece como 11.34. Si esta fuera la marca real, la puntuación sería la que se expresa entre paréntesis con un interrogante.

4 x 100 metros

Notas:

(1) Existió cronometraje eléctrico, pero desconocemos el del equipo español (los belgas, que batieron el récord nacional, marcaron 3:06.82). En el caso español el récord no fue homologado, al parecer por invasión de calle por parte de Magariños. Si fuera esa la razón, esta marca pasaría a un anexo de marcas irregulares.

Notas:

Es evidente que en carreras de 3.000 metros con marcas del orden de 9 minutos o inferiores y en carreras de 5.000 metros con marcas del orden de 15 minutos o inferiores, los tiempos de paso por los 2.000 metros habrán sido inferiores en muchos casos a los 6 minutos.

(1) Tiempo de paso oficial. Sin embargo, en los famosos estudios de los videos de Lennart Julin, esta marca sería 5:48.2.

Notas:

(1) Fue un test de prueba de las nuevas normas de la Asociación Europea de Atletismo. Oficialmente, la competición fue ganada por Chilla, pero con 57.81, marca de su último lanzamiento.

Faltan marcas de menos de 40 metros del año 2022.

Jabalina antigua (hasta 31 de marzo de 1999)

Notas:

La prueba se disputa desde 1980. De 1980 a 1982, el orden del salto de altura y del lanzamiento de peso era el inverso al actual.

En la segunda columna se indica la puntuación según la tabla 1971 para marcas conseguidas antes de 1985, año de entrada en vigor de la tabla actual.

Al repuntar las pruebas con los parciales obtenidos a través de resultados oficiales, se han detectado varios casos en los que las puntuaciones hasta ahora conocidas eran incorrectas y se han corregido. Por ello, algunas marcas diferirán - generalmente en una cuantía inferior a los diez puntos - de las hasta ahora publicadas.

Nota:

En los relevos "Selección" se utiliza cuando el equipo actúa en competición oficial representando a España o a la Federación Territorial que corresponda. En otro caso se emplea "Combinado".
